TEAMS - **Pratique technologique** pour **<u>lundi prochain, 4 mai</u>**

- Students are asked to chose ANY piece of work from Mme Kulokas' page from the last month. Just ONE piece of work please.
- For drawn or hand written work, they should scan or take a photo of the page. Name the file: Pratique-FirstName (eg. Pratique-Amanda)
- For typed or electronic work, they should locate the file easily on their device. Name the file: Pratique-FirstName (eg. Pratique-Amanda)
- Step by step technology instructions are posted in TEAMS in the General channel as an important announcement.
- The student work will NOT be assessed. The purpose of the activity is to have students practice sharing their work and I can practice receiving and viewing their work as one possibility for future student-teacher communication/feedback.
- Thank you for your ongoing support as we explore TEAMS!
- If students are having difficulties, they can ask a question to the class in the Question channel and a classmate might be able to respond. I will be available to answer questions and help students on Monday.
